## **A Message to all our Member Clubs**

The ASWMC Council Meetings are held twice annually, the attendance of our member clubs has been very poor over the past few years, we can only presume that we are doing a satisfactory job, so you don't need to attend the meetings.

But we do value your feedback and coming along to see what we do and the opportunity to chat to other clubs, to discover what they are doing and forge possible partnerships to help run events, can only be of benefit to your club. It is a lot easier to ask another club for help if you have personally met the person on the other end of the phone.

So if you don't want to come and see us would you like us to come and visit you?

### ***Club Nights?***

If you would like one or two of us to attend one of your club nights, to chat to your members about what the ASWMC does, especially our Championships and Marshals Training and how easily your members can get involved.

Contact Paul Parker on 01275 843478 or chairman@aswmc.org.uk

The Marshal's register originally run by all the regional associations has now been centralised and is now run by the MSA, it covers all disciplines and progress through the various grades is achieved by attending events and training days.

It is an MSA requirement that to maintain your grading, a training day is attended at least once every 2 years.

Registered marshal receive a credit card size registration card, which will show your photo and grade. These are issued annually with event and training log cards as required.

Training days and locations and disciplines can also be found under "training days" on The Volunteers in Motor Sport web site. [www.volunteersinmotorsport.co.uk](http://www.volunteersinmotorsport.co.uk)

# A GUIDE TO ASWMC CHAMPIONSHIP DISCIPLINES

## Autocross

Autocross events run on off-road circuits of about 1000m normally on grass or stubble, with the exception of the 4 a-breast Sandocross on the beach at Weston-Super-Mare. Timing is against the clock, with up to 4 cars on track at the same time. Conditions of the track can change rapidly, so you need to be adjusting your driving technique all the time to find the best traction to achieve the fastest time. The event starts with practice followed usually by at least two timed runs, with the fastest time to count for results.

You can start to compete in Autocross events from the age of 14. As long as you have a National B MSA Competition Licence, the basic safety gear of fire resistant overalls, gloves, crash helmet and a fire extinguisher, you can take your everyday car and have a go. Cars vary from Standard Road Cars, Rally Cars, Lightweight Autocross Cars and Specials. Full regulations and requirements can be found in Section 'N' of the MSA Competitors Year Book.

Minimum Age: 16 (14 for Junior Autocross)

ASWMC Championship Registration Fee: £10 Registration is free for Junior Autocross competitors.

MSA Competition Licence requirement: Any National B, Cost from £43

## Autosolo

Autosolos are run on sealed surfaces only, normally a large car park or airfield. Courses of numbered cones are laid out around the venue and competitors take turns to drive the tests. The tests are all forwards and competitors should be able to drive the course without needing to shunt or use the handbrake. Penalties are applied if course markers are hit or the wrong route is driven. The winner being the driver with the lowest accumulated time over all the tests.

Competitors may be required to marshal on some events and are split into groups, so that one group is competing, one marshalling and the other preparing their cars. The groups will then rotate until all drivers have completed the tests.

All cars in Autosolo events must be driven to the events, so will be required to be insured, taxed and MOT'd, with classes ranging from standard cars to modified and sports cars. Full regulations and requirements can be found in Section 'M' of the MSA Competitors Year Book.

Minimum Age: 16

ASWMC Championship Registration Fee: Free

MSA Competition Licence requirement: Clubman, Cost £27

## Autotest

Autotesting is the art of precision car control against the clock over a predetermined course. The course is marked out with cones or poles, each competitor is given a map of the route they must take, showing the direction of travel (forwards or reverse) and various other manoeuvres such as 360 spin turns, reverse flicks, stop astride lines or slalom through a line of cones. Time penalties for hitting cones or going too far over a stop lines are added to the final time for the test. An incorrect test will incur a more severe penalty normally in the region of 30 secs, this is added to the fastest correct time in that class, this is also the maximum time that can be given for that test. Each event will normally consist of between 12 and 24 tests, the driver with the lowest accumulated time over all the tests will be declared the winner.

Cars for Autotest vary from standard road going, sports cars, to chopped down specials, but size doesn't matter as Championship points are Class based. Full regulations and requirements can be found in Section 'M' of the MSA Competitors Year Book.

Minimum Age: 16

ASWMC Championship Registration Fee: Free

MSA Competition Licence requirement: Clubman, Cost £27

## Stage Rallying Sealed & Loose

Stage Rallies can be sealed surface or loose surface events and comprise of several competitive stages, with the winner being the crew (driver and co-driver) that completes them all in the lowest aggregate time.

Before you start you need a full driving licence and then you need to buy an MSA Go Rallying pack, pass a BARS test and then apply for a Rally National B Stage Competition Licence. If you just want to co-drive, you can apply for a Navigator's licence without having to pass the BARS course.

You will need a car that complies with the MSA regulations. This will involve modifying the car with safety components such as a roll cage, special seats and harnesses, fire extinguishers and the vehicle will require an MSA Log Book, which shows that it has been prepared to the correct specifications. As Stage Rally cars have to use the public highway to get between stages the car will also need to be taxed and insured with an MOT certificate.

Stage Rallying involves much higher speeds on closed roads you will need MSA-compliant safety items such as a helmet, fireproof overalls, boots and gloves. Full regulations and requirements can be found in Section 'R' of the MSA Competitors Year Book.

Minimum Age: Driver: 17 + RTA, Navigator: 16

ASWMC Championship Registration Fee: £15

MSA Competition Licence requirement: Driver: Stage National B, Cost £57

Navigator: Any National B, Cost from £43

## Navigational Rallying: Open & Novice

Road Rallies take place on the public highway at night and the emphasis is as much on navigation as driving skill. The events are a natural progression on from club 12 car navigational events.

Crews must maintain a time schedule through all the control points. The navigators use Ordnance Survey maps to direct the driver around the route, collecting codes or obtaining signatures as proof of passage. Timed controls are manned and the crews will be penalised for arriving late or early at these controls.

All you need is a taxed and insured up to 4cyl engined road car with a valid MOT certificate to take part in Road Rallies, while the navigator requires an OS map of the area, a pen or pencil and a lamp. Full regulations and requirements can be found in Section 'R' of the MSA Competitors Year Book.

Minimum Age: Driver: 17 + RTA, Navigator: 12

ASWMC Championship Registration Fee: £10

MSA Competition Licence requirement: Any National B, Cost from £43

## Endurance Rallying

Endurance Rallying is a friendly and low-cost form of Rallying. It is a combination of off road sections called selectifs and a night road rally route. Selectifs are always on private land. The surface could include forest tracks, airfield runways, farm tracks or military training areas. The crew must complete a prescribed route and carry out certain manoeuvres in the shortest possible time. These selectifs can be anything from just a few hundred yards to 20 miles long!

The Road Rally section usually takes place at night, mainly on public roads. It uses straightforward navigation where the object is to maintain the correct time schedule, while following the right route. In total, endurance rallies are usually around 300 miles long.

Cars are restricted to standard specification 1400cc naturally aspirated petrol, 2000cc naturally aspirated diesel or 1400cc forced induction diesel engines and transmissions must also be standard. Suspension modifications are permitted, the car must be fitted with roll over protection and tyres are limited to List 4 of the MSA Permitted Tyres. Full regulations and requirements can be found in Section 'R' of the MSA Competitors Year Book.

Minimum Age: Driver: 17 + RTA, Navigator: 12

ASWMC Championship Registration Fee: £10

MSA Competition Licence requirement: Any National B, Cost from £43

## Hill Climb & Sprint

**Hill Climbing** is our most popular discipline. Cars individually tackle an uphill course, with the quickest time dictating the winner. Competitors are given practice runs before the competition starts and you'll get two competitive runs, with your best time counting in the final results. Course lengths tend to be around the 600m to 1200m on sealed surfaces only and venues use the same course every year, so you are not just competing against other competitors, you are trying to beat your own personal best for that hill.

**Sprints** are based on flat circuits or airfields, courses tend to be over 1400m up to 3000m and again courses rarely change so year on year you can go back to beat your personal best.

There are currently 21 Classes, ranging from standard road cars to F1 spec single seaters. You will need basic safety equipment, such as helmet, fireproof overalls and gloves.

Full regulations and requirements can be found in Section 'S' of the MSA Competitors Year Book.

Minimum Age: 16

ASWMC Championship Registration Fee: £14

MSA Competition Licence requirement: Any National B, Cost from £43

## Car Trials

Car Trials (formally known as PCT's) are without doubt one of the cheapest forms of motorsport.

The aim is to drive the car between markers over a fixed course, this will often be a slippery field, you must achieve this without striking the marker posts or stopping. Courses are marked out with penalty points ranging from 12 to 1, if you make it through to the end of the course without touching the marker posts, you won't incur any penalties. Several tests will be laid out and the overall winner is the competitor with the smallest number of marks. Competitors are split into classes, such as engine over driven wheels etc and championship points are awarded on class position, not the overall position. A standard car is all that is needed to start in Car Trials and you can start from the age of 14. So whatever car you have, your in with a chance.

Full regulations and requirements can be found in Section 'T' of the MSA Competitors Year Book.

Minimum Age: Driver: 14, Front Passenger: 12

ASWMC Championship Registration Fee: Free

Minimum MSA Competition Licence requirement: Clubman, Cost £27

## Classic Reliability Trials

Classic Trials are run over multiple venues using old lanes and sections in wooded areas, road mileage is involved, so all vehicles need to comply with the Road Traffic Act. Marking is the same as Car Trials with marker posts going from 12 down to 1, some sections will include a restart for some classes, where the car has to stop astride a line and then pull away without running back, events also incorporate special tests, which are against the clock, these are used as tie breakers for competitors who finish on the same marks at the end of the day. Cars used vary from vintage to modern and are generally modified to provide extra ground clearance as sections can be quite rough with deep ruts.

Full regulations and requirements can be found in Section 'T' of the MSA Competitors Year Book.

Minimum Age: Driver: 17 + RTA, Passengers Front: 14, Rear: 2, Note 2 to 12 Years in a Child Seat.

ASWMC Championship Registration Fee: £10

Minimum MSA Competition Licence requirement: Clubman, Cost £27

## Sporting Car Trials

Sporting Trials use purpose built lightweight trials cars. The sections have marker posts starting at 12 down to 1, and can be very steep and involving very sharp turns. The driver and passenger need to work as a team, with the passenger moving their weight to where the traction is needed as these cars climb hills that are difficult to walk up. Cars will need to be transported to events, so a trailer or large van will also be required.

Full regulations and requirements can be found in Section 'T' of the MSA Competitors Year Book.

Minimum Age: Driver: 16, Front Passenger: 14

ASWMC Championship Registration Fee: £10

Minimum MSA Competition Licence requirement: Clubman, Cost £27

## All-Rounders

Open to any competitor who registers for two or more of our main championships, the chosen disciplines must be from different groups as detailed on page 35. Points will be awarded for the relative position that the competitor finishes their chosen main championships in relation to the total number of scorers in that championship and also for the number of events competed on within each championship, up to a maximum of 8 events. The two best scores will then be added together for the final total.

ASWMC Championship Registration Fee: Free

## Under 21's

The ASWMC Under 21's Championship is open to anyone under the age of 21 on the 1st of January of the Championship Season. The competitor must register for one of our main championships and points for the under 21's will be awarded for the relative position that the competitor finishes their chosen main championship in relation to the total number of scorers in that championship and also for the number of events competed on within each championship, up to a maximum of 8 events. If a competitor is registered for more than one main championship, then the best score will count towards the Under 21's Championship.

#### **Recommendations:**

All championship rallies are recommended to conform to the following standard penalties and definitions, which should be printed, or otherwise referred to, in event Supplementary Regulations.

##### **a) Penalties:**

The TIME system of marking should be used.

- i) Failure to visit a Time Control – 30 minutes
  - ii) Failure to visit a Route Check, Passage Control or Secret Check - 5 minutes
  - iii) Wrong direction of approach to, or departure from, a control or check - 5 minutes
  - iv) Failure to comply with route instructions by visiting a control or check more than once – 15 minutes
- b) If a Passage Control is unmanned and a CODE BOARD substituted, evidence of visiting that control should be verified at the next MANNED control.

If the QZ is 100metres or less, then this must be clearly marked on the road. All rallies in the championship should appoint a MSA licensed scrutineer. An ASWMC nominated Series Scrutineer may be appointed to act as a "Judge of Fact" to ensure compliance with any of the regulations.
7. A maximum of 2 Senior Officials on events may claim 15 championship points each for organising an event in the Championship calendar. This claim can only be made once in a Championship year. These Officials must be named in the event regulations.

They need not be taxed.

**Note 4:** The onus of responsibility for the eligibility of vehicles competing in the championship rests with the Entrant/Competitor. In the event of a dispute concerning the compliance of a vehicle to the regulations, the onus will be on the competitor to satisfy the organisers, NOT the organisers to prove compliance.

**NOTE 5:** Event Organisers are urged to use the above class structure.

**2. Championship points will be awarded as follows:**

First in class (if an ASWMC Registered contender) – 20 points plus 0.01 points for every 0.01 second their time better than that of the second placed finisher up to a maximum of 21 points.

(If there is only one finisher in the class, who is an ASWMC Registered Contender, then 20 points (max) will be awarded)

Second in class, if an ASWMC Registered Contender – 20 points

Remaining contenders in class: 20 points minus 0.01 points for each 0.01sec that their time is greater than that of the second placed finisher.

The minimum score shall be 1 point.

In addition to the above scoring system a bonus for breaking the record for the class at a venue will be awarded by 0.01 for each 0.01 second up to a maximum of 1 point.

Class records will be records set by ASWMC contenders only.

Class points will be based on all entries in the class.

Existing class records will be posted before the start of the season, if no record for a class exists then the record from an equivalent class will apply plus 0.01 second. Similarly any class record that is disproportionately slow will be adjusted accordingly.

**3. When registering, contenders MUST nominate, on the Championship Registration Form, the class in which they intend to contest the championship and in which their championship points are to be awarded. Contenders wishing to change class MUST notify the Championship Co-ordinator in writing, by email or by post. Letters must be postmarked not later than the day prior to the event in which the change is to be operative. Emails must be sent not later than the day prior to the event in which the change is to be operative. The onus is on the Championship Contender to prove that an email was sent, and received, within the allowed timescale. Failure to comply with the above may result in loss of championship points.**

**4. Clubs may vary, amalgamate or subdivide classes at events as they feel necessary, but must provide the Championship Co-ordinator with Entry Lists and Results showing the cars competitors actually drove so as to allocate points correctly, especially in respect of Regulation 2 above. Where there are less than 3 competing in a class, this may be amalgamated and the points based on the amalgamated class.**

**5. Not more than 2 rounds shall normally be held at any venue using the same course. Venues with more than one course shall be limited to not more than two rounds on any course. This regulation may be waived to maintain the viability of the championship.**
