A Message to all our Member Clubs

The ASWMC Council Meetings are held three times annually, the attendance of our member clubs has been very poor over the past few years, we can only presume that we are doing a satisfactory job, so you don't need to attend the meetings.

But we do value your feedback and coming along to see what we do and the opportunity to chat to other clubs, to discover what they are doing and forge possible partnerships to help run events, can only be of benefit to your club. It is a lot easier to ask another club for help if you have personally met the person on the other end of the phone.

So if you don't want to come and see us would you like us to come and visit you?

Club Nights?

If you would like one or two of us to attend one of your club nights, to chat to your members about what the ASWMC does, especially our Championships and Marshals Training and how easily your members can get involved.

REGULATIONS

- The Open Navigational Rally Championship shall be open to any Driver or Navigator, except those as defined as being eligible for the Novice Navigational Rally Championship, competing for separate awards. It shall consist of events run under either Road Rally or Navigational Rally permits having a minimum of 90 miles. All contenders' vehicles should comply with MSA Technical Regulations for NAVIGATIONAL RALLIES, as defined in section R of the MSA Competitors Year Book.
- Points will be awarded to registered championship contenders only, according to the following table.

Relative position of	1	2	3	4	5	6
championship contender						
Points scored	18	15	13	12	11	10 to 15th place

Points will be awarded to both Driver and Navigator.
- Where two or more competitors tie for a position in the results, the competitor who has completed the greater proportion of the event from the start, without penalty, or if all incurred penalties at the same point, the competitor with the lesser penalty, shall be the winner. If a tie still exists all competitors involved in the tie shall be awarded the points for the highest place involved in the tie.
- It is not necessary for a Driver and Navigator to remain as a team throughout the duration of the championship.
- A perpetual award will be made to the club organising the highest marked event in the championship each year.
- A Driver will always take the classification of his, or her, current Navigator.

Recommendations:

All championship rallies are recommended to conform to the following standard penalties and definitions, which should be printed, or otherwise referred to, in event Supplementary Regulations.

a) **Penalties:**

The TIME system of marking should be used.

- i) Failure to visit a Time Control – 30 minutes
 - ii) Failure to visit a Route Check, Passage Control or Secret Check - 5 minutes
 - iii) Wrong direction of approach to, or departure from, a control or check - 5 minutes
 - iv) Failure to comply with route instructions by visiting a control or check more than once – 15 minutes
- b) If a Passage Control is unmanned and a CODE BOARD substituted, evidence of visiting that control should be verified at the next MANNED control.
- c) CODE BOARDS should be accordance with MSA: R.11.3 – 11.3.3 and sited so as to be CLEARLY visible and readable from within a competing car without the need to stop.
- d) A brief explanation of all route definition methods to be used should be notified to competitors in Supplementary Regulations / Final Instructions.
- e) Organisers should state exact edition of any map to be used on an event.
- f) The map reference of the next route hand out control and/or MTC, should be given as the last instruction on any route card or set of route instructions.
- g) MTC's at ½ way and/or other rest halts, should not be sited at the "IN" or immediately preceding "TIME" control, in order that competitors may make up time lost on the previous section, without risk of exclusion.
- h) Whenever possible secret checks should be established immediately following observed Give Way junctions.
- i) DSO's should be appointed at events to witness behaviour at Slow signs and the use of dipped headlights.
- j) A Quiet Zone (QZ) should not be permitted in a Competitive Section, unless it is less than 100metres, and it must be clearly marked. It is probably better to state that there should not be a Competitive Section on an event, if there is a QZ of more than 100metres in that portion of the event. If the QZ is 100metres or less, then this must be clearly marked on the road.
- All rallies in the championship should appoint a MSA licensed scrutineer.
An ASWMC nominated Series Scrutineer may be appointed to act as a "Judge of Fact" to ensure compliance with any of the regulations.

7. A maximum of 2 Senior Officials on events may claim 12 championship points each for organising an event in the Championship calendar. This claim can only be made once in a Championship year. These Officials must be named in the event regulations.

Note 1: All cars must comply with S.10.1-10.9.

Note 2: All cars with engines running on diesel fuel will be subject to a 30% capacity reduction. E.g. 2000cc diesel engines equate to 1400cc and will be eligible for class A1 or B1 according to their classification.

Note 3: Series Production Cars are defined as cars complying with S.11.1.1, 11.3-5.1, 11.6-8.

Specialist Production Cars are defined as cars complying with S.11.1.2, 11.3-4, 11.5.2-8.

They need not be taxed.

Note 4: The onus of responsibility for the eligibility of vehicles competing in the championship rests with the Entrant/Competitor. In the event of a dispute concerning the compliance of a vehicle to the regulations, the onus will be on the competitor to satisfy the organisers, NOT the organisers to prove compliance.

NOTE 5: Event Organisers are urged to use the above class structure.

2. Championship points will be awarded as follows:

First in class (if an ASWMC Registered contender) – 20 points plus 0.01 points for every 0.01 second their time better than that of the second placed finisher up to a maximum of 21 points.

(If there is only one finisher in the class, who is an ASWMC Registered Contender, then 20 points (max) will be awarded)

Second in class, if an ASWMC Registered Contender – 20 points

Remaining contenders in class: 20 points minus 0.01 points for each 0.01sec that their time is greater than that of the second placed finisher.

The minimum score shall be 1 point.

In addition to the above scoring system a bonus for breaking the record for the class at a venue will be awarded by 0.01 for each 0.01 second up to a maximum of 1 point.

Class records will be records set by ASWMC contenders only.

Class points will be based on all entries in the class.

Existing class records will be posted before the start of the season, if no record for a class exists then the record from an equivalent class will apply plus 0.01 second. Similarly any class record that is disproportionately slow will be adjusted accordingly.

3. When registering, contenders MUST nominate, on the Championship Registration Form, the class in which they intend to contest the championship and in which their championship points are to be awarded. Contenders wishing to change class MUST notify the Championship Co-ordinator in writing, by email or by post. Letters must be postmarked not later than the day prior to the event in which the change is to be operative. Emails must be sent not later than the day prior to the event in which the change is to be operative. The onus is on the Championship Contender to prove that an email was sent, and received, within the allowed timescale.

Failure to comply with the above may result in loss of championship points.

4. Clubs may vary, amalgamate or subdivide classes at events as they feel necessary, but must provide the Championship Co-ordinator with Entry Lists and Results showing the cars competitors actually drove so as to allocate points correctly, especially in respect of Regulation 2 above. Where there are less than 3 competing in a class, this may be amalgamated and the points based on the amalgamated class.

5. Not more than 2 rounds shall normally be held at any venue using the same course. Venues with more than one course shall be limited to not more than two rounds on any course. This regulation may be waived to maintain the viability of the championship.

The Marshal's register originally run by all the regional associations has now been centralised and is now run by the MSA, it covers all disciplines and progress through the various grades is achieved by attending events and training days.

It is an MSA requirement that to maintain your grading, a training day is attended at least once every 2 years.

Registered marshal receive a registration and record card every 2 years, which gives their grade and enables them to record events and training days attended.

Training days and locations and disciplines can also be found under "training days" on The Volunteers in Motor Sport web site. www.volunteersinmotorsport.co.uk
