At signing on competitors will be issued with Test Diagrams, Vehicle Identification Numbers, Test / Marshalling running order and an entry list.

12. Marshals

Competitors will be split into 3 groups. At any one time one group will be competing, a second group will be marshalling and a third group will be preparing to marshal / drive.

Groups will be identified by colour indicated on the entry list and start number. Note:- section 9

All officials, and competitors while acting as marshals, will be Judges of Fact to adjudicate on false starts, hitting cones and not following the correct course.

13 Scrutineering

All vehicles must comply with MSA Technical Regulations. All vehicles entered in the AutoSolo must be taxed and insured for the public road. The validity of the MoT for the competing vehicle will be checked by the organisers online with the DoT. Failure to have a valid MoT will result in Exclusion from the results. Exemption can only be given to vehicles less than three years old (MOT), and then proof of date of first registration will be required. PCA contenders are exempt from this regulation.

Tyres. Tyres from the MSA **Lists 1B and 1C** will **NOT** be eligible for Autosolo events. Tyres marked 'for competition use only', manufactured without a full tread pattern, or in an un-roadworthy condition will not be acceptable. A list of 1b & 1c tyres is printed at the end of the regulations.

All vehicles entered in the AutoSolo must have been driven to the event via the public highway, with the exception of PCA Contenders.

14 Tests

The event consists of all forwards tests, on hard surfaces with the Autosolo and PCA events using the same course. The event will consist of at least 4-test layouts applied to one test area. Time will be allowed to walk the course before the start of each test. Competitors will have three timed [but not less than two if time restricts the event] runs on each test. If a test is stopped on the grounds of safety any baulked competitors will be allowed another run. Competitors causing an obstruction and forcing a rerun for others will not be allowed a rerun

The route to be followed on each course will be designated using cones supplemented by yellow cones laid on their side to show which side to pass each marker. Numbered boards will show the order in which each marker is to be passed. Course layouts will be issued at signing on. The separate start, finish and stop lines will be indicated on the course diagrams. Timing will start when the front wheels cross the start line and stop when the front wheels cross the flying finish line. Competitors **must** then reduce speed and **stop** at the STOP line to obtain the time and return to the paddock at walking speed. Competitors failing to stop at the STOP line must park and walk back to the control to obtain their time.

15 Timing and Timecards

On each test the timing marshal will verbally indicate to the driver that they are able to commence.

Timing will be by hand-held stop watches at the Start and Finish. Timing will be in Seconds to the previous tenth of a second ($1/10^{\text{th}}$).

Results will be determined discarding the worse time recorded on each test.

Where there is a tie the result will be determined by the aggregate of the first runs over each test.

16 Penalties

The following penalties will be applied.

Maximum time is the quickest time in class for that course plus **30** seconds.

|----|--|-------------------------------------|
| 1] | Not reporting at signing on | Exclusion |

About Autosolo's

An Autosolo consists of a number of timed, all forwards tests, on hard surfaces.

The cars used must be roadgoing and driven to the event. The courses don't require special manoeuvres like spin or J turns and their design and marking are intended to make the routes easy to follow.

Compared to a normal autotest speeds tend to be a little higher and the test's will be longer. Cars will start at timed intervals and there will be two or more cars on the course at the same time. Competitors also act as course marshals on a rotating basis.

Some tips for first timers,

- Increasing tyre pressures by 5-10 psi will help with turn in and reduce wear.
- Always wear a seat belt. You will go faster.
- Learn the course. Don't go flat out out and make a mistake on the first run.
- If you make a mistake drive the rest of the course properly. You are still learning
- Talk to regular competitors for advice.
- ENJOY YOUR DAY.

Tyres.

Tyres from the MSA **Lists 1B and 1C** (SECTION I Page 200/202) will **NOT** be eligible for Autosolo events. Tyres marked 'for competition use only', manufactured without a full tread pattern, or in an un-roadworthy condition will not be acceptable.
